HELP SIZE MY RING

Mothersrings.com understands that you may not know the ring size for a given finger and we are here to help.

To Measure Your Ring Size:

In order to measure your ring size, print out the below ruler. Cut out the ruler. Make a slot in the sizer by cutting along the dashed lines. Roll the ruler into a circle with the numbers on the outside. Insert the pointed end into the slot. Wrap the paper ruler snugly around your finger. The ruler must fit tightly on your finger to produce an accurate size.

For the most accurate reading, measure your finger at the end of the day when it is the largest and do not measure cold fingers.

If The Ring Is A Surprise:

If you are giving the ring as a surprise and do not know the ring size, you can measure a ring that properly fits the recipient's intended finger. Place the ring over the circles and match the inside edge of the ring to the circle nearest in size below. This measures the diameter of the ring. If the ring falls between two circles, place your order in the larger size.
